

MYELOIDSCAN STUDY

LONG COVID IN PEOPLE WITH MYELOID BLOOD CANCERS

CAN YOU HELP US LEARN MORE?

Do you have MDS, MPN or CML and have you had COVID 19 infection? If you are able to travel to Oxford for a scan and blood tests, we would love to hear from you. This is what is involved:

Step one

CONTACT US

We can discuss what is involved, and whether the study is suitable for you. Please feel free to discuss with your own consultant too.

Step two

MORE INFORMATION

If the study is right for you, we will send you some written information and then call you to discuss the details.

Step three

FIRST VISIT TO OXFORD

We complete the paperwork, talk about your medical history, and conduct a physical examination. We do blood tests, and an MRI scan.

Step four

SECOND VISIT TO OXFORD

You visit us after 6 months for a further physical examination, blood tests and MRI scan.

Step five

FINAL VISIT

You visit us after another 6 months for a final physical examination, blood tests and MRI scan.

AND THAT'S IT! WE WILL SHARE YOUR RESULTS WITH YOU IF YOU WISH.
